Morley Proposes to Liberate Irish Dynamiters.

HOWL FROM THE OPPOSITION

The Scheme Aims to Create a Controversy in the British Cabinet—Muller and Dowling.

LONDON, Oct. 26.—It is stated that at the cabinet council to be held tomorrow John Morley, chief secretary for Ireland, will propose the release of Irish political prisoners. The proposition is likely to create a controversy in the cabinet and is already agitating the public.

There is but little opposition to the release of the Fenians Muller and Dowling and the alleged dynamiter, J. F. Egan, who have served two-thirds of their terms. Muller was convicted of being concerned in the murder in Phoenix park, Dublin, of Lord Frederick Cavendish, chief secretary for Ireland, and Mr. Burke, under secretary. Dowling was implicated in the murder of a policeman named Cox.

The question of greatest interest is whether the government will dare release Dr. Gallagher and others alleged to have been concerned in the explosions in London, Liverpool and Glasgow. The impression prevails that the government will not take the responsibility of liberating these men.

The Telegraph today recites the most notable of the dynamite outrages since 1881, including the attempts at the Mansion House, London, March 10, 1881; the Liverpool town hall, June 10, 1881; the Mansion House, London, May 18, 1882; the local government board office, Whitehall, March 13, 1883; the police office, Scotland Yard, May 30, 1884; the tower of London, January 24, 1885, and the house of commons on the same day. The Telegraph defines government as the power to release those whom it calls the human monsters who took part in these outrages.

SUDDEN AND STARTLING.

What Is It? What Is the Matter?

Women are great sufferers from nervousness, weakness, female complaints, kidney and liver diseases, nervous prostration and debility. Thousands drop and languish in close, confined shops, factories or offices, and hundreds of thousands wear out their nerve power in household cares and work.

What wonder that they become worn out in nerve and vital power, and have great weakness, exhaustion, pain in back and limbs, and the distressing female complaints caused by loss of vital strength!

The great nerve invigorator and female restorative is Dr. Greene's Nervura blood and nerve remedy. No remedy in the world is so sure to bring back the bloom and color to the cheeks, the brilliancy to the eyes, the elasticity to the step, the strength and vitality to the unstraining, shattered and worn out nerves. It is the greatest of all uterine tonics and regulators, and cures all female weakness, kidney and liver complaints, constipation and irregularities. All weak and suffering women should use this wonderful remedy immediately. Purely vegetable and harmless. Druggists, \$1.00.

"For three years I have suffered intensely with general debility and nervous prostration. So worn out was I that I would have frequent fainting spells, alarming myself and friends. I found immediate relief on taking the first dose of Dr. Greene's Nervura blood and nerve remedy, and was recovering before one-half bottle was used. The use of five bottles effected a complete cure. I can heartily recommend it to those afflicted in like manner. Mrs. M. Walsh, No. 8 Second street, Providence, R. I."

Dr. Greene, the most successful specialist in curing all forms of nervous and chronic diseases, No. 35 W. 14th street, New York, can be consulted free, personally or by letter. Call or write him about your case or send for symptom blank to fill out, and a letter fully explaining your disease, giving advice, etc., will be returned free.

Business First!

And he passed on.
